

## A Unique Society Science Journal Collection

The Independent Scholarly Publishers Group (ISPG) is a new and important initiative in scholarly publishing, initiated in the latter half of 2010. It has brought together a group of prestigious, non-profit society publishers in the medical and human-sciences area -all hosting their content on HighWire Press - who all share the same dedication to bringing high-impact content to researchers around the world. The ISPG, very importantly, aims to do this in a way that is flexible and financially-sustainable for institutions of all sizes globally, and therefore benefitting the scholarly community as a whole.
